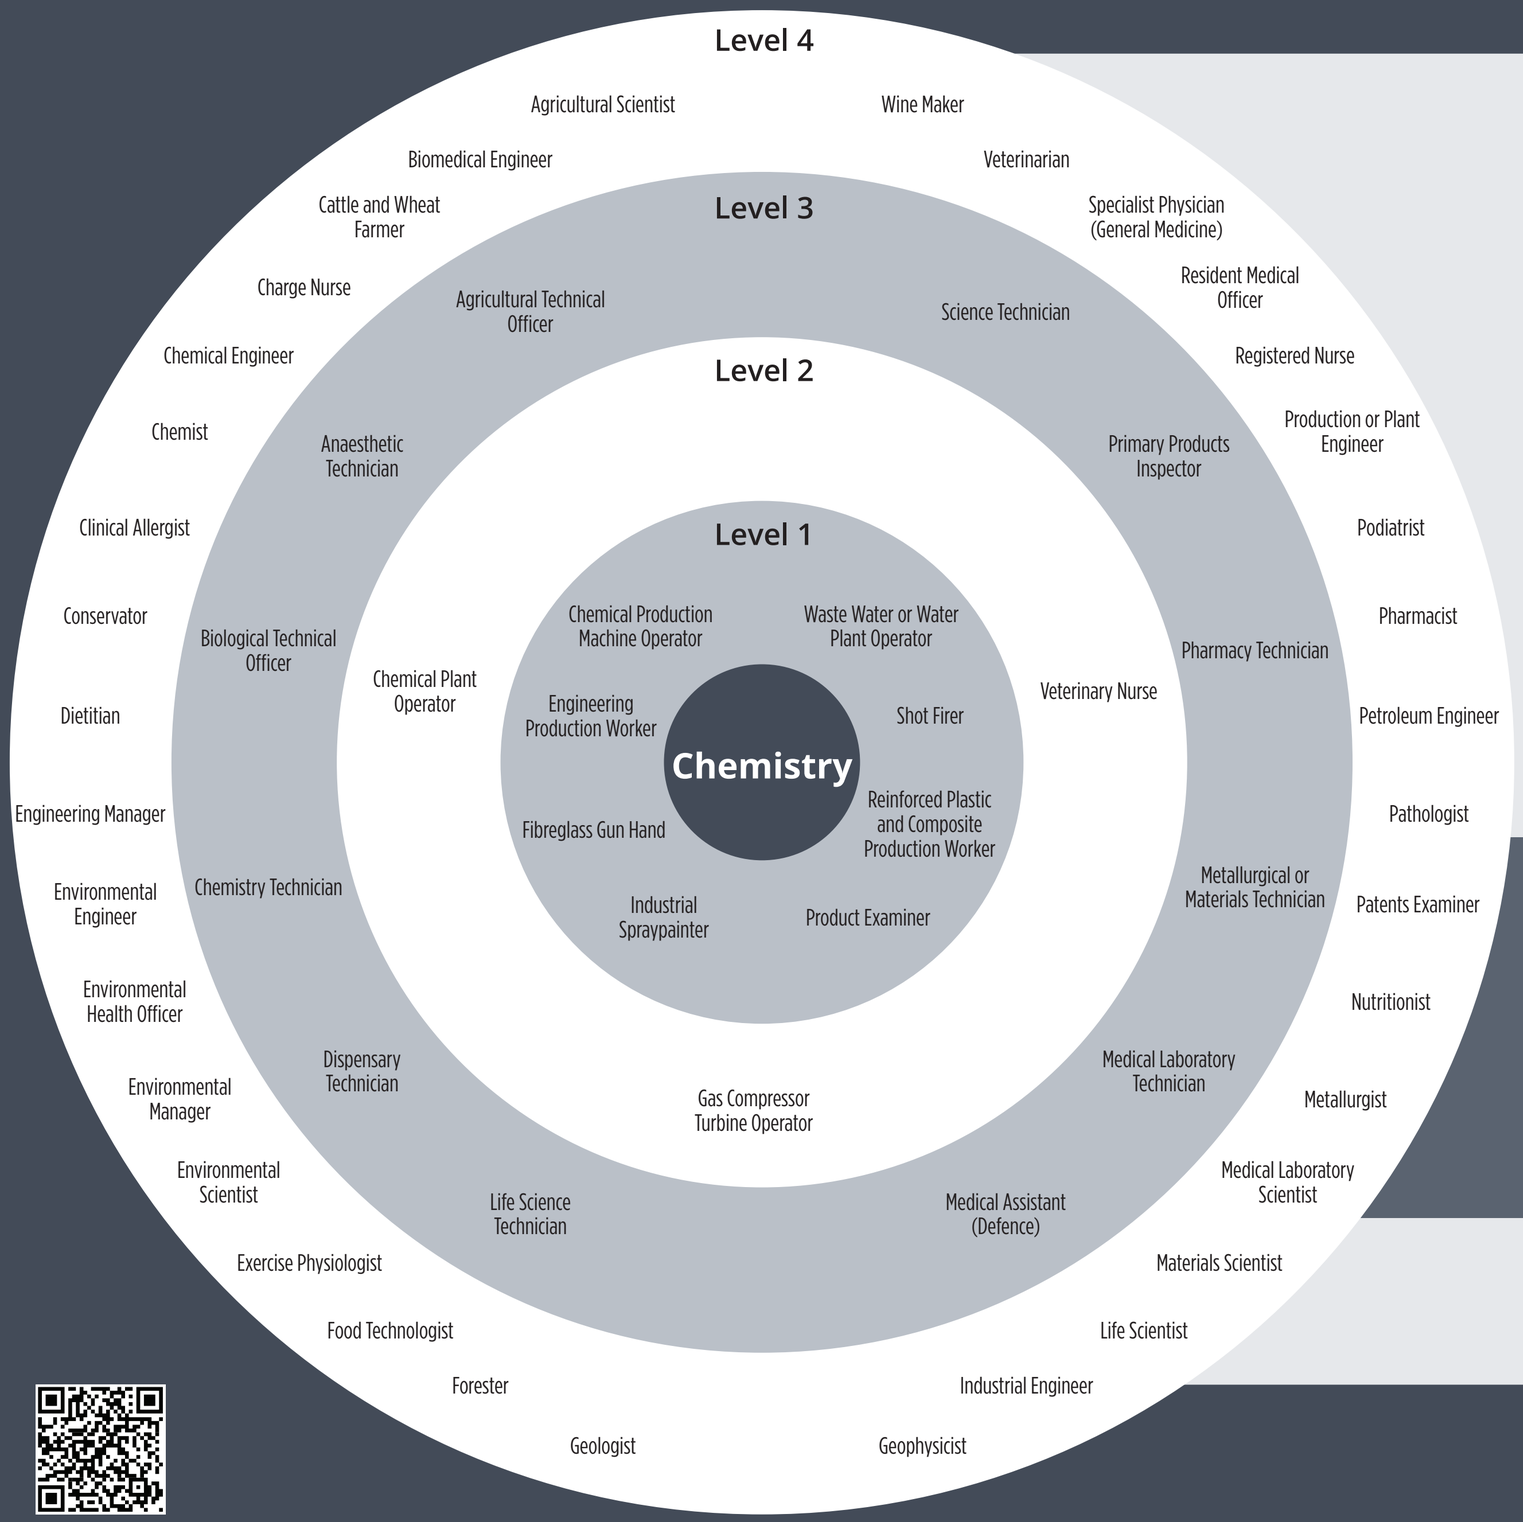
Studying **Chemistry** could lead you to an exciting career



STEM SCIENCE | TECHNOLOGY ENGINEERING | MATHS

Brendan Key
Enrolled Nurse

Brendan's 10 years employment in the Australian Defence Force led to his decision to study nursing. He spent 6 years in the Royal Australian Air Force as part of Operation Outreach, a program in which he conducted child health checks in Aboriginal communities.

He developed an interest in further study and looked into his options for career change and completed a Diploma of Nursing at Bendigo TAFE, and the importance of Chemistry to the program was evident. Having successfully completed the course he gained a graduate role in a well-known hospital program and was a finalist for the Victorian Student of the Year as part of the Victorian Training Awards.
